7. A fuel storage installation was observed in a former wine-vault at Obergrafendorf (0 h9/W 77), which was guarded by soldiers wearing red-bordered black epaulets. Local residents said that the installation had been established about three weeks ago. The vault was located in a slope on the south side of the Obergrafendorf-Spratzern road, about 800 meters northeast of the bridge across the Pielach River,

Comment. The two buildings housed elements of the Hq 13th Gds Mecz Div prior to the end of July 1951, these headquarters elements departed on 9 August, probably for Moedling. See Comment. The present and the last report from St. Poelten indicate that the majority of the components of the 95th Gds Ltz Rifle Div from the

post have not been there since July 1951. They have probably moved to the

Doellersheim troop training grounds. See
